

ROAD ACCIDENTS

After a road accident in Italy

Keep a private file. Safety and medical care come first.

DOCUMENT CHECKLIST

8 things to keep together

01 Scene

☐

Date, place, original photographs, vehicle registrations and witness contacts. Never collect evidence from an unsafe position.

02 Accident statement

☐

A complete copy of the CAI/CID as signed. Explain mistakes separately; do not silently change the original.

03 Authorities

☐

Police force, station and reference; note which documents still need to be requested.

04 Medical records

☐

Italian records and subsequent treatment at home, prescriptions and test results.

05 Expenses

☐

Invoices, payment evidence and a note connecting each expense to the accident. Not every expense is necessarily recoverable.

06 Vehicle

☐

Pre-repair photographs, estimates, towing and storage records; establish how inspection can take place.

07 Correspondence

☐

Claim messages, attachments, delivery evidence, offers and documents to sign.

08 Open tasks

☐

Missing records, who holds them and approaching deadlines. Do not wait for a complete file before checking time limits.
